Das Epidemiologische Bulletin

gewährleistet im Rahmen des infektions-epidemiologischen Netzwerks einen raschen Informationsaustausch zwischen den verschiedenen Akteuren – den Ärzten in Praxen, Kliniken, Laboratorien, Beratungsstellen und Einrichtungen des öffentlichen Gesundheitsdienstes sowie den medizinischen Fachgesellschaften, Nationalen Referenzzentren und den Stätten der Forschung und Lehre – und dient damit der Optimierung der Prävention.

Herausgeber und Redaktion erbitten eine aktive Unterstützung durch die Übermittlung allgemein interessierender Mitteilungen, Analysen und Fallberichte. Das Einverständnis mit einer redaktionellen Überarbeitung wird dabei vorausgesetzt.

Das *Epidemiologische Bulletin* erscheint in der Regel wöchentlich (50 Ausgaben pro Jahr). Es kann im Jahresabonnement für einen Unkostenbeitrag von € 49,- per Beginn des Kalenderjahres bezogen werden; bei Bestellung nach Jahresbeginn errechnet sich der Beitrag mit € 4,- je Bezugsmonat. Ohne Kündigung bis Ende November verlängert sich das Abonnement um ein Jahr.

Die **aktuelle** Ausgabe des *Epidemiologischen Bulletins* kann über die **Fax-Abbruffunktion** unter 030 18. 754-22 65 abgerufen werden. Die Ausgaben ab 1997 stehen im **Internet** zur Verfügung: www.rki.de > Infektionsschutz > Epidemiologisches Bulletin.
