1 Infektion und Kolonisation

(Acinetobacter spp. mit Nachweis einer Carbapenemase-Determinante oder mit verminderter Empfindlichkeit gegenüber Carbapenemen)

2 Clostridioides-difficile-Erkrankung, schwere Verlaufsform

3 Methicillin-resistenter Staphylococcus aureus, invasive Infektion

4 Coronavirus-Krankheit-2019 (SARS-CoV-2)

Weitere ausgewählte meldepflichtige Infektionskrankheiten

| Krankheit | 2025 | | 2024 |
|--|-------|--------|--------|

| Zikavirus-Erkrankung | 0 | 2 | 17 |

In der wöchentlich veröffentlichten aktuellen Statistik werden die gemäß IfSG an das RKI übermittelten Daten zu meldepflichtigen Infektionskrankheiten veröffentlicht. Es werden nur Fälle dargestellt, die in der ausgewiesenen Meldewoche im Gesundheitsamt eingegangen sind, dem RKI bis zum angegebenen Datenstand übermittelt wurden und die Referenzdefinition erfüllen (s. www.rki.de/falldefinitionen).
