In the original version, the source of the GISD data in Figure 1, Table 1, Table 2 and Table 3, Annex Table 1 and Annex Table 2 ('GISD Release 2022 vo.2') and information on the availability of the GISD dataset were missing. Reference no. 38 did not cite the most recent paper to the topic.

We added the data source for Figure 1 and the tables, updated the literature, and also included a note on GISD data in the 'Data availability' section.
