Journal of Health Monitoring 3(3): 50-55.

DOI 10.17886/RKI-GBE-2018-o86

This fact sheet presents the 12-month prevalence of unintentional (accidental) injuries. An earlier version of this article failed to separate accidental from intentional injuries (violence or self-injury) due to an error in variable filtering. As a result, the number of study participants included in the analyses and the reported prevalences were slightly higher than expected.

The corrected version of the article is available at [DOI 10.17886/RKI-GBE-2018-o86.2](https://doi.org/10.17886/RKI-GBE-2018-o86.2)
